

Tokyo Tama Regional Peace Network, Mayors for Peace

Peace Declaration

We, the Tokyo Tama Regional Peace Network of the Mayors for Peace, declare that the entire Tama region of Tokyo will work together to promote “a culture of peace” as the Mayors for Peace have set forth in the “Vision for Peaceful Innovation toward a Sustainable World.”

To foster a sense of peace in society, we will strive to instill a culture of peace in the Tama region in which every resident wishes for peace and thinks about the roles they can play in their daily lives.

We will share and pass on the reality of the ravages of war and atomic bombings, and foster leaders of a culture of peace.

The municipalities of the Tama region will work together to promote a culture of peace and disseminate information both domestically and internationally about our efforts to instill a culture of peace throughout the world and realize lasting world peace.
